ABOUT US

Integrity International.in was formed in July 2008 with offices in Tamilnadu, INDIA. The owners have decades of experience in the fields of pipeline integrity, corrosion engineering, pipeline engineering and project management. Throughout our involvement in these pipeline projects, it has been clear that there is a universal need for highly trained, competent, and experienced inspectors in maintenance projects and in all phases of pipeline and facility construction.

Integrity International.in specializes in providing such inspectors.

OUR TEAM

Over 10 years of experience in the field of inspection on ON/Off-Shore Platforms, Refineries and Petrochemical Plants for clients such as Chevron, MODEC, TOTAL E&P, SABIC, SASOL, QP, QG, PETRONAS and BPCL, CPCL Etc. our team have Professionally qualified API / Welding / NDT / Coating / Lifting / Insulation Inspectors with extensive experience and knowledge within the field of pressure vessel, piping and aboveground storage tanks inspection. Conversant in Risk Based Inspection methodologies and processes with a strong knowledge of all major international codes and standards, application and interpretation.

We have A qualified multi-disciplined inspectors in all relevant industry sectors.

OUR SERVICES

Our service is based on a mutually beneficial three party relationship between Integrity International.in, the inspector, and our client. Through decades of building long relationships with highly experienced field technical personnel, we can place perfectly qualified individuals into field supervisory positions that our client cannot fill with in-house full time employees. We pride ourselves in treating the inspector with integrity, paying a competitive wage on time and correctly, and offering additional benefits to the inspector. Our growth has been and continues to be almost entirely driven by repeat business from satisfied clients combined with the inspector introducing us to new clients as they prefer to continue working through us after completing an assignment.
